

# Ordering Monotype from the Printing Museum Inc.

## FONT SCHEMES

*The following is offered as a guide to ordering fonts of brand new type -*

The schemes enable you to order type in any volume (number of letters) and the (synopsis) are created based on the frequency of use of each letter for setting in the Engl\_\_\_ language.

The synopsis you choose or create will be influenced by the type of printing you will be undertaking.

Typefounders suggest various font schemes and a selection of schemes accompany this note. They are based on the letter A and lower case 'a' (for no other reason than a starting letter) and follow the frequency of usage formula for all letters, numerals and points. **As the type size increases, the volume of type offered decreases based on how frequently you are likely to set, say, in 48 point.**

Take this example from the Riscatype catalogue for a 5kg font of Times Roman (10kg at 48 point)

**10    12    14    18    24    36    48    point size**

A60   A35   A40   A22   A10   A4   A5

a140   a105   a80   a43   a20   a9   a10

You may seek a lesser volume and as hobby printers typically set a single page and reset for more. A font at 14 point could be A20 a40.

With **display** faces – 14 to 72 point – as the size increases the character count reduces simply because of the frequency you are likely to use these sizes, particularly with ornamental faces. For example:

*Amazone*

**14    18    24    30    36    pt**

A6   A4   A3   A3   A3

a40   a20   a12   a15   a12

### Have I enough type for this project ?

Type your copy on your computer. In WORD -

Search your document (CTRL-F)'Find and replace' and enter a letter – e.g. e . Toggle 'Find In', Click 'main document'

The result will give you the number you need to set your copy in one session. There are 191 letter e in this document (outside this panel)

## YOUR ORDER

- **Determine the volume of characters you wish to order using your own scheme or ideas from the following schemes.**
- **Complete a separate form for each font you wish to order. We QUOTE before casting.**
- **The following font schemes focus on small to medium character volumes, and you may consider multiples of a scheme that appeals to you.**

## ORDER FOR MONOTYPE FONT

Complete a separate form for each font or point size

Name:.....

Email address:.....

Delivery address:.....

Phone/s.....

Date of order.....

**Font style** required (name or catalogue no.)

.....

**Point Size** \_\_\_\_\_ Roman ☐ Italic ☐ Bold ☐

### Spacing:

Number required:

3em quad not available in 72 60 48 42 36 30 pt.  
 2em quad not available in 72 60 48 pt

1. Hair
2. 5-em
3. 4-em
4. 3-em
5. En quad
6. Em quad
7. 2-em quad
8. 3-em quad

### Please Note:

- We will quote the cost before casting your order.
- Your acceptance of our quote will activate the order.
- Completion time will depend on your order size and you will be advised of the estimated time by email.
- Some fonts may not have matrix for special characters. We will advise you if this affects your order.

### SIZE OF FOUNTS

The weight as given with each fount shown is approximate and represents the standard fount stocked. Larger founts can be supplied in any multiple of these weights and exceptionally large founts made up from customer's own specification. In most standard founts the caps and lower case are packed separately so that caps or lower case only or additional caps or lower case may be supplied at the normal price. Founts do not include spaces which may be supplied separately.

# FOUNT SCHEMES

Please note these schemes are necessarily approximate for technical reasons.

# Adana Type Synopsis

Caslon Limited • Caslon House • Lyon Way • St. Albans • Herts • AL4 0LB • UK

T: +44 (0)1727-852211 • F: +44 (0)1727-855772

E: sales@caslon.co.uk • W: www.caslon.co.uk

The contents of a fount of type is ascertained by reference to the wording e.g., 5A 12a. By referring to the synopsis it can be seen that this fount contains capitals - 5A, 3B, 4C etc., and also lowercase (small letters) 12a, 5b, 6c etc. All Adana type is cast to a height of 23.32mm (.918"), which is the Anglo-American standard.

Every care is taken in the composition and packing of founts but small variations are inevitable, so the tables below must be accepted as a guide and not a guarantee.
